John, I don't know what to say!!! We have been so looking forward to this day for over a year now and what you said back then "what people are going to remember is the food and if they had a good time".

Well the food was far beyond what ever we expected. To be honest I wasn't sure what I thought. But it was fabulous!! Your dishes were all the rave! All the choices were mouth watering! The presentation!!! MY GOODNESS!!!! How do you do that?!? The condiment table, the bread, the salad the mouth watering roast beef, the veggies, the stuffed zucchini, the tofu!!! John I ate tofu!!!! THE desserts!!!! Dave got his creme brule and I got my apple crisp. It was all absolutely wonderful and EVERYONE loved it. The guests from India were in awe as were the Norwegian group. The grooms dad was so thrilled with the dishes, he couldn't believe the choices and how great they all were. He has been to many events that had vegetarian dishes and he said by far this was hands down the best!

So John we want to thank you for helping make our daughters day one of the best ever!

Thanks too for recommending the DJ, he was awesome!!

Some of the crew are coming over today for brunch and tonight we can relax!

If ever you need statements of star quality please do not hesitate to use this.

Thankyou, thankyou, thankyou.
